

Buckeye Mac Group

Serving Macintosh and Internet Users in Central Ohio

August 2009

Monday, August 24th

**Audience Faves
& App-i-Teasers**

**Q & A begins at 6:15
Program begins at 7:00**

AT THE MUSEUM OF BIOLOGICAL DIVERSITY

1315 Kinnear Road, South side of the road, easy to find
East of North Star or West of Kenny and Olentangy River Roads and Rt. 315

Appetizer for an App-i-Teaser: Pizza / Participation Party!

Tell us your favorite tip or trick in an application, utility or the OS that makes computing life easier, and get pizza!

**We all have discovered a favorite feature that makes using the computer more fun - share yours with the group!
It doesn't need to be too long or involved, for instance: a key command, a shortcut, a method for doing a task.**

Example: The Mac OS has many "hidden gems" in the way of key commands. In order to take a picture of a select area of the screen, hold **Command + Shift**, and press **4**. The mouse pointer will turn into a cross-hair, allowing you to click and drag to select a certain portion of the screen. The image will appear as a file on the Desktop called "Picture 1" and will open in Preview. Subsequent screen shots will be numbered sequentially.
